2160p

4K

You want to connect a display device via VGA, DVI or HDMI to your PC, Mac, Ultrabook or notebook/laptop with Mini DisplayPort socket? With this adapter you have the right solution - with resolutions up to 3840x2160 @30Hz!

- White PVC housing with labelled sockets
- Maximum resolution: 3840x2160 @30Hz
- Adapter with Mini DP plug and VGA, DVI and HDMI socket
- Approx. 10 centimetres cable length

What are the benefits of using Active adapters and converters?

Active products can have a huge advantage when working with long cable runs and video conversion applications. In terms of video converters, active units generally have hardware inside to improve your image.

Note: The Mini DisplayPort adapter only works in one direction: the Mini DisplayPort connector is only on the data source side can be used (eg graphics card) and only ONE single output is available (DVI or HDMI or DP)

- Compliant DP v1.2 (max. 4096 x 2560 @60Hz)
