

Highlights:

- Triple shielding
- 26 AWG stranded coaxial
- 5 x coaxial (RGBHV) + sync
- Silver plated copper conductors

The SVGA60 is a high-end video cable for all high resolution video interconnects. It contains 5 shielded coax cables, all with 7-strand silver plated copper conductors, foamed polyethylene dielectric and braided tin plated copper shielding. This cable also has a global dual shield consisting of an Aluminium foil and a plated copper braided shield for perfect shielding. The coax cables feature a high velocity of propagation and minimal return loss to ensure quality signal delivery on lengthy connections. Additionally, five 11-strand bare copper lead wires are included to carry control signals. Compatible with Neutrik BNC connector NBTC75BSS5.
