

BLACKMAGIC CONVMOF MINI CONVERTER Video and audio, Optical fibre

Convert SDI to Optical Fibre and Optical Fibre to SDI simultaneously.

Mini Converter Optical Fibre automatically switches between SD/HD/3G-SDI video standards and both directions are completely independent. Use this converter if you need to send and receive SDI signals over longer distances than traditional SDI/HD/3G-SDI cables will support. SDI video can be sent up to 45 km or 147000 feet using optical fibre. Capable of transmitting 3G HD-SDI up to 25 km.

Connections:

1. **OPTICAL OUT** LC single mode fibre output.
2. **OPTICAL IN** LC single mode fibre input.
3. **HD-SDI OUT** BNC HD-SDI video output.
4. **HD-SDI IN** BNC HD-SDI video input.
5. **POWER +12V** 12 volt power supply input.
